PROFESSIONAL SUMMARY

Detail-oriented Software Quality Assurance Engineer with experience in manual testing, database validation, and defect management in Agile environments. Skilled in delivering high-quality software through structured testing and analytical problem-solving. Developed and deployed a production-ready multi-role bus booking platform (goJourney), demonstrating full-stack development expertise and a strong focus on quality, performance, and user experience.

PROFESSIONAL EXPERIENCE

01/2026 – 07/2026
Colombo, Sri Lanka

LAYOUTindex Pvt. Ltd, Colombo, Sri Lanka
Software Quality Assurance Engineer Intern

- Designed and executed comprehensive manual, functional, and regression test cases for the CINEsync film hall management system (Web, POS, Kiosk, Mobile).
- Identified, documented, and tracked defects using structured defect management practices, ensuring timely resolution.
- Performed SQL-based database validation to verify data accuracy, integrity, and backend consistency.
- Collaborated within Agile teams, actively contributing to sprint planning, testing cycles, and release validation.
- Provided client-facing technical support, resolving user-reported issues and improving overall customer satisfaction.
- Developed and maintained clear test documentation including test cases, bug reports, and test completion reports.

PROJECT EXPERIENCE

goJourney
Full-Stack Bus Booking Platform (Featured Project)

- Architected, developed, and deployed a production-grade Progressive Web Application (PWA) supporting passengers, bus operators, and administrators.
- Implemented real-time seat booking with conflict resolution to prevent double-booking under concurrent usage.
- Integrated PayHere payment gateway with automated booking confirmation and subscription billing system.
- Developed live GPS tracking functionality using Firebase Realtime Database and Leaflet.js.
- Built multi-language support (Sinhala, Tamil, English) with responsive UI across all devices.
- Applied strong security practices including role-based access control, Firestore security rules, and HTTPS enforcement.
- Conducted extensive QA including cross-browser testing, responsive testing (320px–2560px), and edge-case validation.

QA Testing Projects
E2E Testings and Migration Testings

- Conducted End-to-End (E2E), regression, and migration testing for multiple applications including Alittle, INDEEPA, Carousel, IDHIKR App, and WASHAPP.
- Designed and executed structured test cases, reported defects, and verified fixes to ensure release readiness.
- Collaborated closely with development teams to maintain product quality and stability.

Academic Project – Lecturer and Students Evaluation System

- Performed manual and end-to-end testing for CRUD operations.
- Validated data consistency between Visual Basic frontend and MySQL database.
- Ensured accuracy of evaluation calculations and data integrity.

EDUCATION

06/2022 – 11/2025
Batticaloa

BSc. Physical Science (Computer Science)
Eastern University Sri Lanka
Completed

2020

G.C.E. Advanced Level — Physical Science
PL/Giritale Gama National College
Physics: C, Mathematics: S, Chemistry: S

2016

G.C.E. Ordinary Level
PL/Giritale Gama National College
7A Passes, 1B, 1C, 9 Subjects

TECHNICAL SKILLS

Programming & Web
- JavaScript (ES6+)
- HTML5, CSS3
- SQL

Tools & Platforms
- Git / GitHub
- Vercel, VS Code, PyCharm
- Browser DevTools
- MS Office

Databases
- Firebase (Firestore, RTDB)
- MySQL, MongoDB

Core Concepts
- SQA / STLC / Agile
- CRUD & Data Validation
- Data Structures & Algorithms
- REST APIs & PWA

Testing
- Manual & Functional Testing
- UI/UX Testing
- Cross-Browser Testing
- Regression Testing
- Cypress Automation

PROFESSIONAL SKILLS

Analytical Thinking
Strong ability to identify edge cases and logical flaws; applied in implementing String Matching Algorithms and goJourney's concurrent seat-lock system.

Attention to Detail
Committed to high standards evidenced by zero post-launch defects on ZONO TIMER and production-grade security implementation in goJourney.

SDLC / STLC Awareness
Practical understanding of software development and testing life cycles, applied daily during internship in an Agile delivery environment.

Documentation & Communication
Skilled at writing clear test cases, defect reports, and technical documentation to bridge QA and development teams effectively.

LANGUAGES

Sinhala

English
