Portfolio

Skills

Languages
JavaScript (ES6+), HTML5, CSS3

Databases
MySQL, MongoDB, Firebase, SQL

Tools & Platform
Vercel (Deployment), Git/GitHub (HerathT), MS Office, VS Code, PyCharm, Selenium

Core Concepts
SQA (Software Quality Assurance), Data Structures & Algorithms, CRUD operations

Interests

Web Development
Web Development

Software Quality Assurance
SQA, QA

Summary

Highly detail-oriented Computer Science graduate with a strong interest in Software Quality Assurance and Manual Testing. Proficient in identifying front-end bugs and performing database validation using SQL and CRUD operations. Eager to apply analytical problem-solving skills and a systematic approach to ensure software reliability and high-quality user experiences in an Software Quality Assurance Associate Engineer role.

Education

Eastern University Sri Lanka — Bsc. Physical Science • Completed
Computer Science — June - 2022 to November - 2025

PL/ Giritale Gama National College — G.C.E Advanced Level • Physics - C, Maths - S, Chemistry - S
Physical Science — 2020

PL/ Giritale Gama National College — G.C.E Ordinary Level • 7A Passes with 1B and 1C Pass
2016

Technical Proficiencies &Development Workflow

Testing Types
Familiar with Manual Testing, Functional Testing, and UI/UX Testing

Defect Management
Skilled in identifying, documenting, and reproducing software bugs using Browser Dev Tools

Database Testing
Proficient in writing SQL queries to verify data accuracy and backend consistency

SDLC/STLC Knowledge
Understanding of the Software Development Life Cycle and the importance of QA within Agile environments

Documentation
Capable of creating clear test cases and bug reports to facilitate effective communication with developers

Professional Competencies & Soft Skills

Analytical Thinking
Strong ability to find edge cases and logical flaws, as demonstrated by implementing complex String Matching Algorithms

Attention to Detail
Committed to high standards of software quality, evidenced by the clean deployment of the ZONO TIMER app

Collaboration
Experienced in working within team structures to solve "Real World Problems" and improve software delivery

Languages

Sinhala
Native

English
Intermediate

Work Experience

LAYOUTindex — Colombo, Sri Lanka
Software Quality Assurance Engineer Intern — 2025-2026
Member in Client Support Team — 2025-2026

I am currently in the final month of my internship as a Software Quality Assurance (SQA) trainee while also serving as a member of the client support team at my company. This experience has helped me gain practical knowledge in both quality assurance and customer support. I am eager to continue learning, improving my skills, and contributing to effective software delivery and client satisfaction.

Projects

Academic Projects
* Quality Validation: Conducted manual testing of CRUD operations to ensure data integrity between the Visual Basic front-end and MySQL database.

* Bug Identification: Performed end-to-end testing to verify that lecturer evaluations were correctly calculated and stored without data loss.

Timer Web App
* Cross-Browser Testing: Validated responsiveness and functionality across multiple browsers (Chrome, Firefox, Edge) using Browser Developer Tools.

* UI/UX Testing: Verified the accuracy of the countdown and stopwatch logic through rigorous edge-case testing.
