Kanchana Herath

Software QA Engineer | Manual & Automation Testing | SDET Track

kanchanaherath251@gmail.com | +94 725 434 820 | Nugegoda, Sri Lanka | LinkedIn : Kanchana Herath | Sri Lanka | 2000/05/16

Software QA Engineer with hands-on experience testing production Web, POS, Kiosk and Mobile products for international clients in Agile teams. Strong in functional, regression, end-to-end and UAT testing, SQL data validation, root cause analysis and structured defect management. Building automation depth with Cypress and Selenium (Python) while designing large, module-wise test suites and internal QA tooling. Also designed, built and deployed goJourney, a production full-stack PWA, which gives me a developer's view of how software breaks and where to test first.

PROFESSIONAL EXPERIENCE

LAYOUTindex Pvt. Ltd, Colombo, Sri Lanka

Software QA Engineer (Trainee) 07/2026 – Present | Rajagiriya, Colombo

- Tested every CINEsync module in depth, using functional, regression and exploratory approaches across multiple environments.
- Designed module-wise test suites with positive, negative, boundary and integration scenarios, for modules including Cash In / Cash Out (128 cases, 12 categories), Loyalty Points, Subscription / Membership and Offline/Edge Trading (111+ cases).
- Building Cypress E2E automation for the CINEsync kiosk (React, TypeScript) with shared page objects on staging.
- Reviewed BRDs for requirement gaps; reported, tracked and retested defects with developers.

Software QA Engineer Intern 01/2026 – 07/2026 | Rajagiriya, Colombo

- Executed functional, regression, smoke and UAT testing across Web, POS, Kiosk and Mobile products (CINEsync, Rossdales, alittle).
- Validated workflows and data accuracy with SQL; prepared test cases and defect reports and tracked defects to closure.
- Supported production issue investigation and root cause analysis in Agile cycles.

PROFESSIONAL SKILLS

Analytical Thinking — Strong ability to identify edge cases and logical flaws; applied in implementing String Matching Algorithms and goJourney's concurrent seat-lock system.
SDLC / STLC Awareness — Practical understanding of software development and testing life cycles, applied daily during internship in an Agile delivery environment.
Attention to Detail — Committed to high standards evidenced by zero post-launch defects on ZONO TIMER and production-grade security implementation in goJourney.
Documentation & Communication — Skilled at writing clear test cases, defect reports, and technical documentation to bridge QA and development teams effectively.

EDUCATION

BSc. Physical Science (Computer Science), *Eastern University Sri Lanka* 06/2022 – 11/2025 | Batticaloa
GPA: 2.96

G.C.E. Advanced Level — Physical Science, *PL/Giritale Gama National College* 2020
Physics: C, Mathematics: S, Chemistry: S

G.C.E. Ordinary Level, *PL/Giritale Gama National College* 2016
7A Passes, 1B, 1C, 9 Subjects

TECHNICAL SKILLS

- **Testing:** Functional, Regression, Smoke, Exploratory, End-to-End, UAT, Integration, Cross-Browser and Responsive Testing; Test Case Design (positive, negative, boundary); Migration Testing; SQA / STLC / Agile
- **Automation:** Cypress (E2E, Page Object Model), Selenium with Python, JavaScript / TypeScript basics, Playwright Automation with AI
- **Data & APIs:** SQL (data accuracy and integrity validation), MySQL, Firebase (Firestore, Realtime Database), MongoDB, REST APIs
- **Tools & Platforms:** Zoho Sprints, Git / GitHub, Browser DevTools, VS Code, Vercel, MS Office
- **Practices:** Defect Lifecycle Management, Root Cause Analysis, BRD / Requirement Analysis, Test Documentation

CERTIFICATES

Dean's List, Eastern University, Sri Lanka (Year 3, Semester 2, highest academic performance.)

PROJECT EXPERIENCE

goJourney , *Full-Stack Bus Booking Platform (Featured Project)*

- **Full-Stack Bus Booking PWA** (Athlex Pvt. Ltd.) · React, Firebase (Firestore, RTDB, Cloud Functions), Leaflet.js, PayHere
- Architected and deployed a production PWA for passengers, bus operators and administrators.
- Built real-time seat booking with concurrent seat locks, PayHere payments hardened with Cloud Functions, and live GPS tracking.
- Secured with role-based access, audited Firestore rules and HTTPS; supports Sinhala, Tamil and English from 320px to 2560px.
- Led the B2C-to-B2B restructure and wrote the stakeholder BRD.

QA Testing Projects, *Enterprise Application QA: E2E and Migration Testing*

- Ran E2E, regression and migration testing for Alittle, INDEEPA, Carousel, IDHIKR App and WASHAPP, verifying data accuracy after upgrades.

Academic Project – Lecturer and Students Evaluation System

- Performed manual and end-to-end testing for CRUD operations.
- Validated data consistency between Visual Basic frontend and MySQL database.
- Ensured accuracy of evaluation calculations and data integrity.
